Our digital pedagogy and vision at Clover Hill State School
Challenges, Connects, Enriches, Inspires and **Creates** Life-long learners

iLearn@CloverHill is responsive to the needs of a society dependent on technology and the 21st century learner. The core of our learning success is the continuous dynamic interaction between students, teachers and parents. The program provides opportunities for students to engage in relevant and inspiring learning experiences preparing them for the future.

Parents provide an ipad for their child to use in the iLearn program. Information on specific device requirements is available on the Clover Hill website. Entry into the iLearn@CloverHill program costs $40 per year.

FAQs

Why choose iLearn?

Students who are able to express themselves creatively tend to be better communicators and problem solvers. Access to flexible tools allows them to bring projects to life and have the freedom of expression.

Teachers facilitate and leverage learning to suit the varied needs of their students through a culture of continuous innovation.

Parents form an important link in learning and technology allows us to bridge the gap between home and school. Learning is visible and can occur anywhere and anytime.

How much screen time will my child spend on the iPad each day at school?
The amount of time that students spend on their iPad each day will vary from year level, class to class, student to student and even day to day. The amount of time will also vary based on how well the iPad suits the tasks that are being completed and the benefit to the student.

What does the $40.00 iLearn fee cover?
It helps to pay for the apps , making the same selection of learning apps available to all students in the program at school and at home.
It also covers support from the school IT technician as needed.

How are the ipads kept safe?
iPads are safely stored in the classrooms which are locked at break times. Students are responsible for taking devices home to charge and return each day.
